AI Visibility Snapshot

Prepared for: Nolo Medspa & Wellness (Nolensville & Eagleville, TN) Date: June 16, 2026

1. What buyers see when they ask AI about you

I asked the major AI engines and search the questions a real customer in your area would ask:

- *Who is the best med spa in Nolensville, TN for Botox and filler?*
- *Where can I get Morpheus8 or weight-loss treatments near Nolensville?*

Result: AI led with **Body Works**, which positions itself as “the only full-service med spa in Nolensville,” plus Yelp “top 10” lists. Nolo Medspa did surface, but mainly through Instagram, Yelp, and a separate website (nolomedspatn.com), not this site. You are in the conversation, but a competitor is being named first on your home turf.

2. Your AI visibility scorecard

Check	Status
Structured data (tells AI what you are, where, your services and reviews)	Missing
AI crawler access (robots.txt, sitemap, llms.txt)	Missing (returns 403)
Page title and basic on-page SEO	Partial (no page title)
Readable content (not hidden behind JavaScript)	Good
One clear, authoritative website	Missing (split across 3+ sites)

Overall AI Visibility Grade: D (38 / 100)

3. The three things hurting you most

- 1 No structured data.** AI cannot cleanly read who you are, where you are, your services, or your reviews. For a local med spa this is table stakes, and competitors that have it get named first.
- 2 Your brand is split across several websites.** This Jane builder site, nolomedspatn.com, and your Jane booking page all represent “Nolo Medspa,” alongside Instagram, Facebook, and directories. AI sees a divided business instead of one authoritative source, which weakens every signal.
- 3 The crawl basics are broken on this site.** There is no page title, and robots.txt, sitemap, and llms.txt all return 403, so engines cannot get a clean map or AI-ready summary. Meanwhile Body Works is claiming the top spot.

4. What this means

Buyers in Nolensville are increasingly asking AI who to trust, and right now AI is more likely to hand them to a competitor. The good news: every issue above is fixable, most competitors have not fully fixed it either, and you already have real reviews and two locations to build on.

The full picture, every question your buyers ask, how often you appear, exactly who is beating you and why, and the step-by-step fix plan, is in the complete AI Visibility Audit. Let’s book 20 minutes to walk through it. [Calendar link]
