AI Visibility Snapshot

Prepared for: AW Skin Co. (Franklin / Cool Springs, TN) Date: June 16, 2026

1. What buyers see when they ask AI about you

I asked the major AI engines and search the questions a real customer in your area would ask:

- *Who is the best med spa in Franklin, TN for Botox and filler?*
- *What is the best medical spa in the Cool Springs area?*

Result: AI named **GLOW, OVME, Jack & Jill Aesthetics, and A Prestige. AW Skin Co. did not appear** on the main Botox-and-filler search, and on the Cool Springs search you came up last, behind national chains. Here is the surprising part: your site is actually well built, but its settings tell the AI engines not to read it.

2. Your AI visibility scorecard

Check	Status
Structured data (tells AI what you are, where, your services)	Good (rich schema present)
AI crawler access (robots.txt, sitemap, llms.txt)	Failing (robots.txt blocks AI bots)
Page title and basic on-page SEO	Good
Readable content (not hidden behind JavaScript)	Good
One clear, authoritative brand	Partial (email on a different domain)

Overall AI Visibility Grade: D (52 / 100)

3. The three things hurting you most

- 1 You are telling AI not to read you.** Your robots.txt explicitly blocks **ClaudeBot (Claude), GPTBot (ChatGPT), and Google's AI crawler**, and flags the site "ai-train=no." You did the hard work of adding rich structured data, then locked the AI engines out of it. This is the single highest-leverage fix, and it is fast.
- 2 Your brand identity is fragmented.** Your public email is on a different, misspelled domain (aesheticandwellness.com) rather than awskinco.com, your name appears as both "AW Skin Co." and "AWSkinCo+," and your Facebook has no clean handle. AI sees inconsistent signals about who you are.
- 3 You are absent from the high-intent answers.** You do not appear for "best med spa in Franklin for Botox and filler" and sit last, behind national chains, on Cool Springs. There is no llms.txt giving AI a clean summary of your practice.

4. What this means

AW Skin Co. has done more on-page work than most med spas, and then quietly forbade the AI engines from reading it, so competitors get recommended while you stay invisible. Unblocking the crawlers and consolidating your brand would move you quickly, and most competitors have not done this work at all.

The full picture, every question your buyers ask, how often you appear, exactly who is beating you and why, and the step-by-step fix plan, is in the complete AI Visibility Audit. Let's book 15 minutes to walk through it. [Calendar link]
