AI Visibility Snapshot

Prepared for: Nuud Skin Co. (Berry Hill / South Nashville, TN) Date: June 16, 2026

1. What buyers see when they ask AI about you

I asked the major AI engines and search the questions a real customer in your area would ask:

- *Who is the best med spa near south Nashville for Botox and filler?*
- *What is the best medical spa in the Green Hills area?*

Result: AI named **OVME**, **Elan Skin & Laser**, and **Skin Pharm**, your own neighbors. **Nuud Skin Co. did not appear**, even though you are minutes from all of them in Berry Hill. A big reason: your site tells AI you are an online “store,” never a Nashville medical spa.

2. Your AI visibility scorecard

Check	Status
Structured data (tells AI you are a local med spa)	Partial (reads as an online store)
AI crawler access (robots.txt, sitemap, llms.txt)	Good (llms.txt present)
Page title and basic on-page SEO	Good
Readable content (not hidden behind JavaScript)	Good
One clear, authoritative brand	Partial (scattered across booking sites)

Overall AI Visibility Grade: D (52 / 100)

3. The three things hurting you most

- 1 AI thinks you are an online store, not a local med spa.** Your structured data is only a generic “Organization” plus a store tag. There is no local-business or medical-business markup with your address, hours, services, or providers, so AI cannot confidently classify you as a Nashville med spa.
- 2 Your brand is fragmented across booking and listings.** Your presence is split across nuudskin.co, Vagaro, Fresha, and Yelp, with inconsistent naming (“Nuud Skin” versus “Nuud Skin Co. Berry Hill”). That dilutes the entity signal AI uses to decide who to name.
- 3 Thin local-intent content.** The site is built as a storefront, not as answer-shaped neighborhood and service pages targeting “best med spa in Berry Hill or south Nashville for Botox.” There is little for AI to lift into an answer.

4. What this means

Nuud Skin has a technically sound site, but it reads to AI as a generic skincare store rather than a local Nashville med spa, so you are shut out of the exact “best med spa near me” answers where OVME, Elan, and Skin Pharm are winning patients. Adding local and medical structured data plus neighborhood content would change that quickly.

The full picture, every question your buyers ask, how often you appear, exactly who is beating you and why, and the step-by-step fix plan, is in the complete AI Visibility Audit. Let’s book 15 minutes to walk through it. [Calendar link]
