AI Visibility Snapshot

Prepared for: SKN Shack (Thompson's Station, TN) Date: June 16, 2026

1. What buyers see when they ask AI about you

I asked the major AI engines and search the questions a real customer in your area would ask:

- *Who is the best med spa in Spring Hill, TN for Botox and filler?*
- *What is the best medical spa in Thompson's Station, TN?*

Result: For your own town you do surface, but for the larger neighboring market the answer goes elsewhere. On "best med spa in Spring Hill for Botox and filler," **SKN Shack did not appear**, while AI named **Marvel Cosmetic MedSpa**, **OOMMA MD**, and **A Prestige**. Every Spring Hill searcher next door is being handed to a competitor.

2. Your AI visibility scorecard

Check	Status
Structured data (tells AI what you are, where, your services)	Good (schema present)
AI crawler access (robots.txt, sitemap, llms.txt)	Good (no llms.txt)
Page title and basic on-page SEO	Good
Readable content (not hidden behind JavaScript)	Good
One clear, authoritative brand	Partial (leans on directories; split booking)

Overall AI Visibility Grade: C- (58 / 100)

3. The three things hurting you most

- 1 You are invisible in neighboring Spring Hill.** You only surface for "Thompson's Station," while the larger Spring Hill "Botox and filler" answer goes to Marvel, OOMMA, and A Prestige. You are missing the bigger market right next door.
- 2 AI leans on directories instead of you.** AI and search pull from Yelp, Vagaro, Portrait Care, and Booksy rather than sknshack.com, and your booking sits on a separate GlossGenius subdomain. That splits your brand signal across other people's platforms.
- 3 No answer-shaped content or llms.txt.** Your schema describes the business but not the answers buyers ask. There are no FAQ or service pages targeting "best for Botox in Spring Hill," and no llms.txt to summarize you for AI.

4. What this means

Your technical bones are unusually clean for a local med spa, which is a real advantage, so the fix is not a rebuild. It is claiming the Spring Hill and Botox answer space with targeted content, consolidating your brand off third-party directories, and adding an llms.txt so AI starts naming you instead of Marvel and OOMMA.

The full picture, every question your buyers ask, how often you appear, exactly who is beating you and why, and the step-by-step fix plan, is in the complete AI Visibility Audit. Let's book 15 minutes to walk through it. [Calendar link]
